Summary

Computer Science and Engineering student targeting Artificial Intelligence, Machine Learning, and full-stack software engineering roles. Experienced in developing practical machine learning models, designing RESTful APIs, and building reliable web applications tailored for cloud environments.

Education

Degree	Institute	Score	Year
B.Tech (CSE)	MGM College of Engineering, Nanded	7.96 CGPA	2022–2026
HSC	Yeshwant Mahavidyalaya Junior College, Nanded	74%	2022
SSC	Andhra Samithi Telugu High School, Nanded	90.40%	2020

Experience

AI Project Intern — Infosys Virtual Internship 6.0

Feb 2026 – Apr 2026

- Designed models based on deep learning for image stylization using Python and open source computer vision frameworks, processing over 5,000 images.
- Improved model processing efficiency by 35%, resulting in a significantly smoother rendering process for stylized images. ([Offer Letter](#), [Certificate](#))

Machine Learning & AI Intern — Wixflux Technologies

Dec 2025 – Feb 2026

- Engineered end-to-end machine learning pipelines to streamline data preprocessing, model training, and evaluation, accelerating workflows by 40%.
- Successfully deployed predictive models into production environments to support backend integration tasks for over 1,000 daily users. ([Certificate](#))

AI Intern — Intrainz

Aug 2025 – Oct 2025

- Fine-tuned predictive algorithms by training on a dataset of over 10,000 real-world records.
- Enhanced overall model accuracy by 15% and reliability through systematic hyperparameter optimization and feature selection. ([Certificate](#), [LOR](#))

AI Intern — MyJobGrow (IIT Bombay Techfest)

Sep 2024 – Nov 2024

- Optimized scikit-learn data processing pipelines to automate and simplify core feature engineering tasks for 5+ client projects.
- Reduced compute execution times by 25%, which significantly improved the overall efficiency of the training workflow. ([Certificate](#), [LOR](#))

Projects (Live)

Agentic AI Travel Planner — [GitHub](#) — [Live Demo](#)

- Built an autonomous travel planner that dynamically generates custom itineraries based on user preferences.
- Integrated LLM agents and external REST APIs in Python, significantly reducing manual trip planning time by 80%.

Toonify AI SaaS — [GitHub](#) — [Live Demo](#)

- Created a web platform that converts real-world images into cartoon styles using deep learning models, processing up to 500 images daily.
- Launched the application using modern cloud hosting, providing users with reliable rendering and fast processing.

Daredevil Digital — [GitHub](#) — [Live Demo](#)

- Architected a full-stack corporate platform tailored for lead generation with robust client-side routing, responsive design, and dynamic content rendering.
- Implemented modern React architecture with TypeScript and optimized state management, ensuring a highly performant (95+ Lighthouse score) and scalable web experience.

Sweet Shop Management System — [GitHub](#) — [Live Demo](#)

- Constructed a secure, centralized dashboard to manage product inventory and streamline day-to-day shop operations.
- Utilized React, Node.js, and MongoDB to build a capable system for billing management and reliable sales tracking for 50+ daily transactions.

Technical Skills

Languages: Java, Python, PHP, JavaScript, TypeScript, SQL, C

Core Concepts: Data Structures, Algorithms

Frontend & App Development: HTML5, CSS3, React.js, React Native, iOS App Development

Backend: Node.js, Express.js, REST APIs, AJAX

CMS & Platforms: Shopify, WordPress

AI and ML: Machine Learning, NLP, LLMs, Agentic AI, scikit-learn, TensorFlow, LangChain

Databases: MySQL, MongoDB, Supabase

Learning Management Systems: Moodle Cloud

Automation & CRM: Trello, GoHighLevel, n8n

Cloud & Deployment: AWS (EC2, S3, Lambda, VPC, VPN, IAM), Microsoft Azure, Google App Engine, Vercel, Render

Tools: Git, GitHub, Postman, Linux, OpenClaw

Data Analytics: SQL, Excel, Power BI, Python

Certifications

- [Introduction to Machine Learning](#) — NPTEL
- [Complete Full Stack Developer](#) — Udemy
- [Cloud Computing](#) — NPTEL
- [AI and Machine Learning Using Python](#) — SWAYAM Plus
- [Data Science & Artificial Intelligence](#) — IIT Roorkee (E&ICT Academy)

Achievements

- Honored during the Graduation Ceremony by MGM College of Engineering for outstanding academic excellence and selection into the IIT Madras NPTEL Research Fellowship, and was awarded an INR 25,000 prize. ([Recognition](#))
- NPTEL Discipline Star, Enthusiast, and Motivated Learner (IIT Madras) — [Official Listing](#)
- International Research Paper Presentation - MULTICON-W 2026: "Zero-Shot Learning Based Multilingual Medical Symptom Understanding and Disease Inference System Using NLP and Semantic AI" ([Certificate](#))
- Awarded the [Gem of MGM Award \(2025\)](#) for displaying strong technical merit and academic dedication.
- Selected for Inter Zonal (Solapur Zone) University Cricket Selection. ([Certificate](#))
